the legal norms of international humanitarian law ihl are the product of a compromise between humanitarian considerations and the demands of military necessity in searching for a principle of humanity in international humanitarian law international legal scholars consider whether humanitarian considerations have an independent legal impact on ihl beyond the formation of these norms they ask whether a principle of humanity can be said to have legal force in its own right moreover the book investigates whether regional or national differences are emerging regarding the import and emphasis placed on humanitarian considerations for instance do states which are not directly affected by armed conflict attach a greater weight to humanitarian considerations when interpreting and applying ihl than those states which are more directly involved in armed conflicts specifically this book examines whether a particular nordic perspective can be identified owing to those states involvement in armed conflicts outside their own territories in the post second world war era

the main aim of this book is to inquire into the system of norms regulating the internationalization of internal conflicts the traditional distinction between international internal conflict which entails different legal consequences is in practice very difficult to detect due to the presence in many instances of elements typical of both situations through a careful extraordinarily useful examination of all relevant cases of internationalized internal conflict since 1956 the validity of the traditional framework of rules concerning foreign intervention in internal conflict is reassessed at the same time the applicability to these situations of the rules typical of international conflicts are analyzed with a view to providing the existence of a continuum between the two situations not only as a matter of fact but also with respect to their legal regulation

the essays selected for the first part of this volume offer an insight into the development as distinguished from the history of international humanitarian law the focus of the majority of the works reprinted here is on an analysis of the adequacy of the law as it stood at the time of the respective publication and in the light of existing contemporary armed conflicts and military operations thus the reader is afforded an in depth look at the early roots of international humanitarian law the continuing relevance of that body of law despite advances in weapons technology and the efforts to progressively develop it international humanitarian law s development cannot be considered in isolation from its principles the essays selected for the second part of the volume deal with the two fundamental principles underlying all of international humanitarian law humanity and military necessity the articles on the principles of humanity include reflections on the famous martens clause and the analyses of military necessity take no account of kriegsraison moreover they offer proof of the customary character of the principle of distinction in land air and naval warfare

in three distinct volumes the editors bring together a distinguished group of contributors whose essays chart the history practice and future of international humanitarian law at a time when the war crimes of recent decades are being examined in the international criminal tribunals for former yugoslavia and rwanda and a new international criminal court is being created as a permanent venue to try such crimes the role of international humanitarian law is seminal to the functioning of such attempts to establish a just world order the events of september 2001 and the worldwide threat of terrorist attacks bring into sharper focus questions about the ramifications of unconventional warfare and how prisoners taken in armed conflict short of declared war should be treated here again international humanitarian law can provide the guideposts needed to find a just course through difficult times the intent of these volumes is to help to inform where humanitarian law had its origins how it has been shaped by world events and why it can be employed to serve the future

the accountability of armed non state actors is a neglected field of international law overtaken by the regimes of state responsibility and individual criminal accountability as well as fears of legitimacy yet armed non state actors are important players in the international arena and their activities have significant repercussions this book focuses on their obligations and accountability when they do not function as state agents regardless of the existence or extent of accountability of their individual members the author claims that their distinct features lead to their classification into three different types de facto entities armed non state actors in control of territory and common article 3 armed non state actors the mechanisms that trigger the applicability of humanitarian and human rights law regimes are examined in detail as well as the framework of obligations in both cases the author argues that armed non state actors should not be treated as entering international law and process exclusively through the state the study concludes by focussing on their accountability in international humanitarian and human rights law and more specifically to the rules of attribution remedies and reparations for violations of their primary obligations

despite the advances made by the international community to outlaw the resort to force by the united nations charter armed conflicts both international and non international are a fact of every day life the civilian casualties from such conflicts have assumed catastrophic proportions little attention however has been paid by scholars to the treatment of noncombatants in armed conflict and the place in international law of the principle fundamental to the law of armed conflict noncombatant immunity this work aims to remedy this omission the author analyses in detail the content of the customary and conventional rules that give effect to this principle in both international and non international armed conflict the importance of such a study is highlighted by the recent gulf conflict where so many of the states were not bound by the most recent treaty rules protecting noncombatants
